

What You Should Know About:

## **ELECTRONIC VISIT VERIFICATION (EVV)**

Intended Audience: Ohio Providers of Home- and Community-Based Services (HCBS)

Congress passed a law requiring state Medicaid programs to implement an EVV system for certain home- and community-based services (HCBS). The law is commonly referred to as the 21st Century Cures Act.

Ohio Administrative Code 5160-1-40 requires Ohio Medicaid providers to use EVV.

Nurses and home care HCBS providers who bill for services subject to EVV requirements must document their time using a state-approved solution.

To learn more about EVV, please visit the Ohio Medicaid EVV web page.

### **Have questions? We are here to help!**

The EVV FAQ document answers common questions on EVV.

Please don't hesitate to reach out to the EVV support team at ODMEVV@sandata.com.

Ohio contracts with Sandata

Technologies to provide the EVV system. Providers can sign up for a 1:1 session with a Sandata trainer for system questions.

Additional contacts are available to assist.

### **What is EVV?**

EVV is a system that captures the following visit details:

1. Identity of the direct caregiver.
2. Identity of the individual receiving services.
3. Service(s) rendered.
4. Location where service is rendered.
5. Start/stop times of service.

There are 3 ways to capture a visit:

- Mobile app: An application on a Sandata-provided device or a device owned by the caregiver or provider. This is the preferred option.
- Telephony: Uses a dedicated phone line providers call into from any phone.
- Manual visit entry: Uses a computer to directly enter a visit into the EVV system.

Ohio offers the EVV Sandata system to all providers at no cost. An agency provider may use an alternate system.

### **Getting Started Checklist – Providers using Sandata system**

- ✓ Complete EVV Training:
  - » Agency Training.
  - » Independent (Non-Agency) Training.
- ✓ Receive email with credentials to sign into Sandata eTRAC website.
- ✓ Sign in and download your unique Sandata Welcome Kit.
- ✓ Log into EVV Portal.
- ✓ Set up correct individuals, services, employees, etc., as applicable in EVV Portal.
- ✓ Start capturing visits when providing services to individuals.

Agency providers using an Alternate EVV system may require a different Getting Started process.
